Rural population	42893	**46419**
Urban population	75107	**81281**

Census data 2011 Refer Open Space Strategy 2017 for methodology

* The urban mapping boundary splits the parish of Boughton Aluph; this allows for the open space within Goat Lees to be part of the urban mapping data, and open space associated with the village of Boughton Aluph to form part of the rural data. The number of properties within the 'village' section of the split has been calculated as 252, using GIS mapping. The population is calculated as 2.4 per dwelling, total 605.
